ABOUT ME

I am a student with a strong interest in Artificial Intelligence, web design, and modern technology. Passionate about finance, trading, and business, I focus on developing AI-based systems to enhance efficiency and creativity.

PENDIDIKAN

SMK Negeri 1 Surabaya	2025–present
SMP Negeri 12 Surabaya	2022–2025
SDIT Ghilmani Surabaya	2016–2022

EXPERIENCE

AI-Based Telegram Bot Developer – personal project

Designed a Telegram bot integrating basic AI concepts to analyze data and deliver relevant information with high accuracy and automation.

Self-Learning in AI and Financial Technology

Studying core concepts of Artificial Intelligence, web design, blockchain basics, and digital investment through independent exploration and hands-on experimentation.

KEMAMPUAN

- Programming: Python (beginner–intermediate), HTML, CSS, JavaScript
- Web Technology & Web3: Basics of responsive web interfaces, dark mode implementation, smart contract concepts, and introductory cryptography
- Artificial Intelligence: Basic understanding of machine learning and simple automation using Python
- Finance & Investment: Fundamentals of digital financial management, simple financial data analysis, and investment literacy
